SUMMARY

Associate Product Manager with 1+ year owning AI-powered enterprise SaaS from discovery to launch, backed by internships in product and pricing analytics. Turns ambiguous business problems into scoped PRDs, sequenced roadmaps and GenAI systems with real TAT gains.

EXPERIENCE

UnifyApps | Enterprise AI and Automation SaaS, Gurugram

Sep 2025 - Present

Associate Product Manager

Aug 2026 - Present

Enterprise Deployment: AI Meeting Prep Agent, Information Management client

- Defined product requirements for an AI sales-prep agent, turning seller pain points into structured stakeholder, risk and coaching output
- Designed multi-system integration across Salesforce, Gong, People.ai and Seismic, automating context pull and AI-driven deck creation

Product Analyst

Sep 2025 - Jul 2026

- Prioritized 20+ automation candidates on effort versus value, shipping the highest-impact ones to give each team back a day every week
- Scoped agentic GenAI pipelines on GPT, Claude and Gemini, holding human review in the loop and compressing a 3-day cycle to 4 hours

Enterprise Deployment: Agentic Incident Management System, Robotics client

- Framed fragmented triage as the core pain point, then defined an agentic platform on Zendesk hooks that halved incident resolution TAT
- Set the automation boundary at Sev1 and Sev2, making 90% of incidents hands-free while easing ops load from 4 hours to 10 minutes
- Mapped the escalation matrix with client ops, paging only rostered on-call owners ahead of L1 and L2 managers at 100% SLA compliance
- Specified a bridge-call bot that actions in-chat commands to page responders and auto-distributes minutes, closing a documentation gap

Enterprise Deployment: Coaching Operations Platform, EdTech client

- Drafted the spec for a single workspace unifying coach, student and admin journeys, folding 4 legacy tools into one live system of record
- Diagnosed manual sorting as the main bottleneck, specifying an OpenAI node that scheduled parsed uploads against live coach capacity
- Launched reporting and task-tracking modules adopted by 50+ coaches, replacing weekly status compilation with self-serve dashboards

Business Analyst Intern | Spinny

Jul 2025 - Aug 2025

- Reviewed weekly pricing changes on 500+ car listings, flagging 8% as mispriced for the Demand Pricing team with drivers documented
- Developed SQL and Excel trackers across the same inventory, trimming review turnaround by 20% and unifying weekly price reporting

Analyst Intern | Assiduous

Jul 2024 - Dec 2024

- Improved inventory turnover by 20% with demand forecasts built on historical sales, keeping fast-moving SKUs in stock at peak periods
- Evaluated Amazon revenue, competitor rates and ad performance over 10+ campaigns to surface trends and flag underperforming SKUs

Product Manager Intern | FlinkHire

May 2024 - Jul 2024

- Drove a 35% lift in adoption by piloting a resume-parsing feature on FlinkHire's applicant portal, after validating demand with recruiters
- Interviewed 20+ HR managers and candidates, distilling recurring frictions into user stories and a 200+ lead outreach pipeline for GTM

PROJECTS

P2P Mobility Platform | Product Case Study

Jan 2025

- Uncovered three mobility gaps (high ownership costs, idle vehicle time, trust deficits) from primary interviews with owners and renters
- Architected an end-to-end solution spanning rentals and carpooling, covering identity verification, listing, booking and messaging flows

Optimizing High-Demand Event Booking | BookMyShow Case Project

Jul 2024 - Dec 2024

- Ranked first among 200+ fellows in the NextLeap Product Management fellowship, judged on problem framing, research and structure
- Modeled a scalable tiered-queue system with live wait positions, scored against two alternatives on RICE after user and market analysis

EDUCATION

Birla Institute of Technology and Science, Pilani (Goa Campus)

Oct 2021 - Aug 2025

Bachelor of Engineering (Hons.) in Mechanical Engineering

Delhi Public School, Patna (CBSE)

Mar 2020

SKILLS

Product Craft: Strategy, Discovery, Roadmapping, PRD Writing, User Research, RICE Prioritization, Backlog Grooming, Agile Delivery, Stakeholder Alignment, Go-to-Market

GenAI and AI Stack: GPT, Claude, Gemini, Prompt Engineering, AI Agents, LLM Applications, Workflow Automation (n8n)

Technical and Analytics: SQL, Python, REST APIs, API Integrations, JSON, Excel, Power BI, Data Analysis

Tools: Figma, Postman, Jira, Notion, Whimsical

CERTIFICATIONS

NextLeap PM Fellowship (Nov 2024) | MySQL Bootcamp, Udemy (Mar 2025) | McKinsey.org Forward Program (Jul 2025)
